Thanks very much T– I did not know you were the go-to person, or I would have gone to you right away.

I will be out of the office all day tomorrow, so if you would kindly also copy David Albright, address above, that would be appreciated.

Thanks, Michele

Hi Tricia: I am unsure if R9 contacted you directly about this, but is it possible for you to just send Michelle pdfs of the final documents on the Big Bend Class II disposal well AE including the ROD?

Thanks,

Douglas

Hi Douglas,

Sorry to bother you with this but two months ago we sent the link for the Big Bend aquifer exemption documentation to CA to assist them with the AE process. I don't recall this being a problem two months ago when we sent the link, but I was just contacted by them and they noted that the link is saying "Restricted Access" and requiring an EPA password, etc. I tried the link myself, and also to try to find the documents on your Region 8 homepage, but I had the same problem. I tried to enter my EPA passwords, etc., but the system would still not grant me access. If you have a .pdf file of the documents that are within that link, would you kindly send along?

Thanks.

Sincerely,

Michele

Hi Michele,

Can you help us get a copy of this document. It is Restricted Access and looks like one needs to have an EPA LAN ID to get a copy. Thanks.

Jerry

Hi Rob,

It was suggested to me that an even better example of an aquifer exemption request submitted to Region 8 is available through the link below. In any event, I think both examples help to show that a more narrowly focused application/request is the goal. If you are around next week, let's plan to have a brief conversation to follow up on our meeting and the two examples we sent in case any additional questions arise.

Have a good weekend.

David
